STATEMENT OF COMPLIANCE WITH THE FCC'S CUSTOMER PROPRIETARY NETWORK INFORMATION (CPNI) RULES

Webfire Communications, Inc. operating procedures ensure that WEBFIRE COMMUNICATIONS, INC. is in compliance with the FCC's CPNI Rules because disclosure of, or permitting access to, our customers' CPNI is not allowed without obtaining the requisite customer approval, except as required by law, or the exceptions set forth in 47 U.S.C. §222, and Subpart U of Title 47 of the Code of Federal Regulations; 47 C.F.R §64.2001 through §64.2011.

WEBFIRE COMMUNICATIONS, INC. has internal procedures in place to educate our employees about CPNI and the disclosure of CPNI. Our employees are instructed that CPNI is information that relates to the quantity, technical configuration, type, destination, location and amount of use of the telecommunications services subscribed to by any customer of WEBFIRE COMMUNICATIONS, INC. that is made available to us by the customer solely by virtue of our relationship with our customers; and information contained in the bills pertaining to telephone exchange service or toll service received by our customers; except that such term does not include subscriber list information. Our employees that have access to this information are aware of the FCC's rules and are prohibited from disclosing or permitting access to CPNI without the appropriate customer consent or approval as allowed by law and the FCC rules. Any employee that improperly discloses CPNI is subject to disciplinary action, and possible termination. We also ensure that our vendors that lawfully have access to our customer CPNI, such as our billing company, are aware of the CPNI rules.

The use of, disclosure of, and access to CPNI, as defined in 47 U.S.C. §222, and Subpart U of Title 47 of the Code of Federal Regulations; 47 C.F.R. § 64.2001 et seq., is not allowed by WEBFIRE COMMUNICATIONS, INC. without customer notification and approval as set forth below.

Any notification to a customer must provide notice to the customer of the customer's right to restrict use of, disclosure of, and access to that customer's CPNI. Notifications will specify the types of information that constitute CPNI and the specific entities that will receive the CPNI, describe the purpose for which CPNI will be used, and inform the customer of his or her right to disapprove of those uses, and deny or withdraw access to CPNI at any time. WEBFIRE COMMUNICATIONS, INC. employees may use oral notice to obtain limited, one-time use of CPNI for inbound and outbound customer telephone contacts for the duration of the call. WEBFIRE COMMUNICATIONS, INC. will maintain records of notification, whether oral, written, or electronic, for at least one year. If our customers' CPNI is used for WEBFIRE COMMUNICATIONS, INC.'s sales and marketing campaigns, the appropriate safeguards are taken as set forth in 47 C.F.R. §64.2009.

Opt-In Notice – This method is required for disclosure of CPNI to unrelated third-parties or to affiliated carriers that do not provide communications-related services and for disclosure of CPNI to affiliated entities providing communications-related services, as well as third party agents and joint venture partners providing communications related services. WEBFIRE COMMUNICATIONS, INC. will obtain the customer's express, affirmative consent allowing the use and release of CPNI. This requirement does not apply to subscriber listing information given to other carriers for telephone directories pursuant to FCC Rules.

Opt-Out Notice – This method used only in situations permitted by the Commission's rules. Under this method, the customer is deemed to have consented to the use, disclosure or access to the customer's CPNI if the customer has failed to object thereto within a minimum of 30 days from receiving notice.

WEBFIRE COMMUNICATIONS, INC. requires customers to provide a password when they contact us before we will release call-detail CPNI. WEBFIRE COMMUNICATIONS, INC. provides password-protected online CPNI access. In addition, WEBFIRE COMMUNICATIONS, INC. notifies customers of account changes and will notify customers of unauthorized disclosure of CPNI if such an event takes place.
